

ACADGILD

SESSION 4: FOUNDATIONAL R PROGRAMMING-II

Assignment 2

Table of Contents

1.Introduction	3
2.Objective	3
3.Prerequisites	3
4.Associated Data Files	3

Data Analytics

5.Problem Statement 3

6.Expected Output 3

7.Approximate Time to Complete Task 3

1. Introduction

This assignment will help you understand the concepts learnt in the session.

2. Objective

This assignment will test your skills on foundational R Programming- writing functions.

3. Prerequisites

Not applicable.

4. Associated Data Files

Not applicable.

5. Problem Statement

1. `x <- c('data.science.in.R','machine.learning.in.R')`

Perform the below string operation:

- Replace the period character "." within each string with another character i.e. "-" minus sign.

2. `x <- c('data.science.in.R','machine.learning.in.R')`

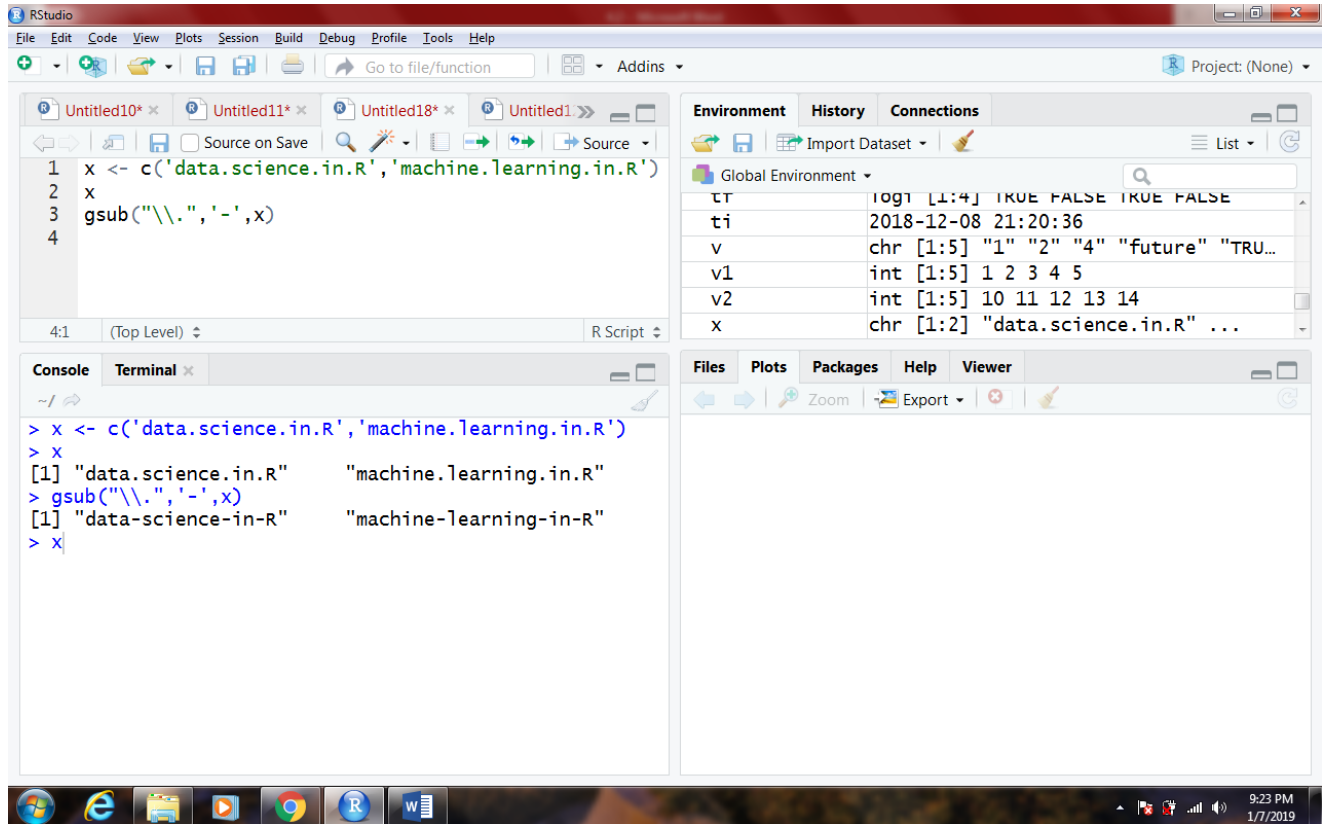

Perform the below String operation:

- Append again with "-" minus sign character at the start of each string and finally concatenate all the string within the vector to form a final single string and assigning it to some object

Data Analytics

Ans1 –

```
gsub("\\.", '-', x)
```

Ans 2

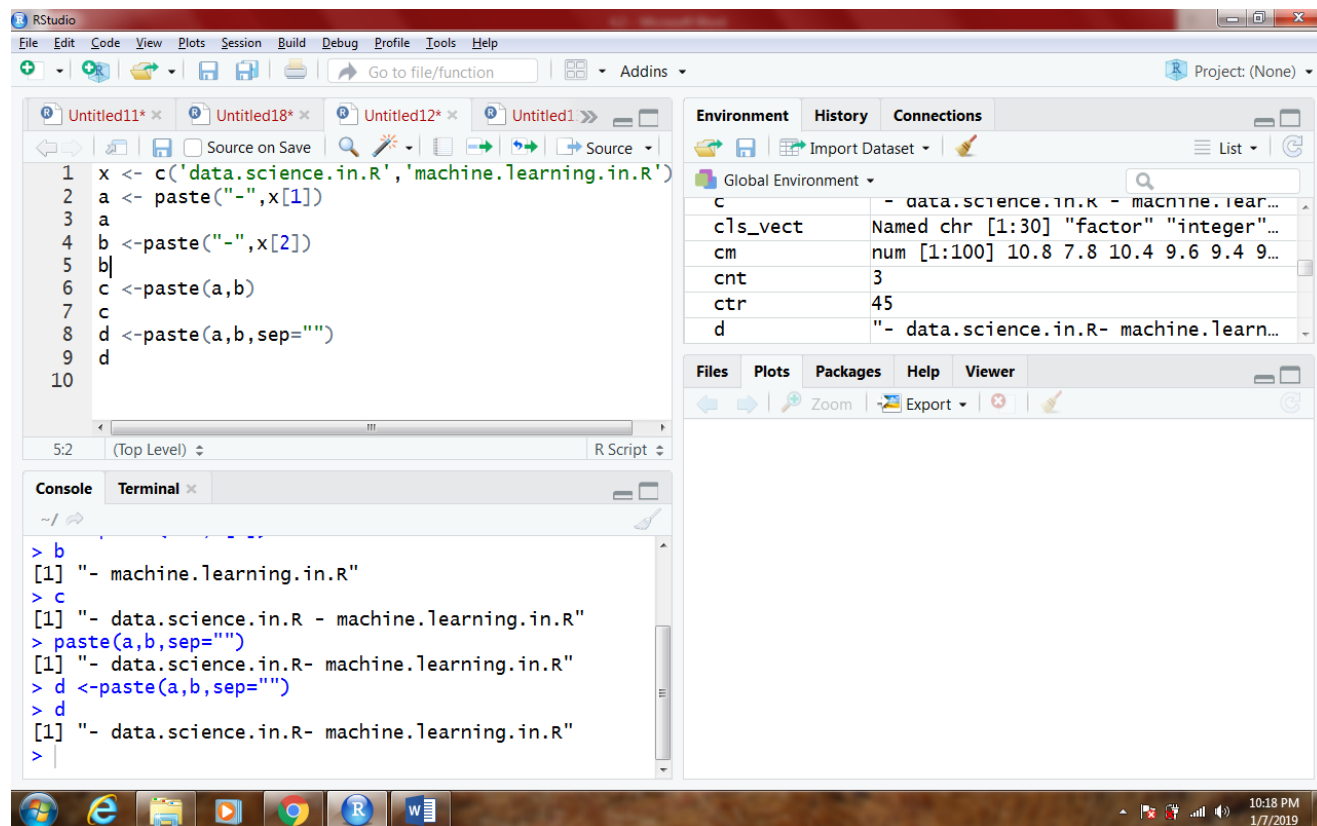

```
x <- c('data.science.in.R', 'machine.learning.in.R')
a <- paste("-", x[1])
a
b <- paste("-", x[2])
b
c <- paste(a, b)
```

Data Analytics

c

```
d <-paste(a,b,sep="")
```

d

6. Expected Format

1. R file should be submitted where applicable.
2. R file should be in PDF or in .r format
3. Proper screenshots of the outputs should be submitted as well
4. The r codes, if submitted in any other format, will be subjected to deduction in marks

Note: Your solution will not be entertained if it is any other format, e.g., .zip, .doc, .rtf etc.

7. Approximate Time to Complete Task

20 mins.
